Hey Tim,

As you requested for your consideration of what to share with NJ in Thursday's meeting, here is the recent internal deliberative work I sent to the research team regarding the probable perfluoroethers. I am copying Andy Lindstrom as the project's technical lead so he can discuss this with you, and my management chain.

Whatever you decide, no sharing of anything, verbal description only, sharing an internal deliberative map, or another option, is fine with me.

Guys,

The attached Pdf is three maps of draft Solvay Compound concentrations in soil. Interesting stuff.

See the spreadsheet. Be careful of errors – done fast at end of long day.

Have a good week,
John
